Blended Feeds

Nutrinsa has fully computerised and FeedSafe-accredited blending plants at our Mount Maunganui, Marsden and Stratford stores, which ensure accurate and homogenous mixing of your feed and minerals.

Pellets / Compound Feed

For those clients that prefer pelleted/compound feed, we source cost-effective top quality diets to provide maximum returns.

Bulk Supply

All of our products are available as individual feed components or can be blended to your requirements.

Cow transition options

To allow for an effective transition:

1. Adjust the rumen to the milking diet.
2. Provide adequate antioxidants to support immunity.
3. Allow enough calcium to prevent milk fever.

Tranzsol is simply the best and easiest transition supplement. Proven to work in a pasture-based system.

Blend Ingredients

Canola Meal | Citrus Pulp Pellet | Dried Distiller Grains
Hi-Fibre Feed | High Starch Pellets | Kibbled Maize
Palm Kernel Expeller | Soya Bean Hull | Soya Bean Meal
Sunflower Meal | Tapioca | Vat Buster
