DAIRYSMART

DETECT, DIAGNOSE & PREVENT MASTITIS

EASTERN BAY OF PLENTY REGIONAL EVENT

It's time to open the playbook of mastitis from the pathogen source!

Join us for an engaging workshop designed to explore the science behind mastitis and its causation from pathogen sources.

This interactive event will empower dairy farmers with essential knowledge and tools to prevent mastitis before it becomes a problem, as well as effective strategies for managing cases that arise.

Led by Ryan Medlin from DairySmart and Donna Greene, they will dive deep into the latest research and practical applications that can help you protect your herd.

Attendees will gain valuable insights into identifying risk factors, implementing preventive measures, and utilizing DairySmart's innovative solutions.

A BBQ lunch will also be provided by DairySmart!

Don't miss this opportunity to enhance your understanding of mastitis management and take proactive steps to ensure the health of your dairy operation.

Event start: 10:30am
Event finish: 1:30pm
